

26 May 1987  
OCA 87-2187

MEMORANDUM FOR: Executive Officer, DDA

FROM:

Office of Congressional Affairs

SUBJECT: HPSCI Request for Additional Information on  
the FPO/SPO Changeover

1. Today Calvin Humphrey, HPSCI staffer, called to request information in addition to that provided in the A/DCI's response to Chairman Stokes' 8 May letter on the FPO/SPO changeover. He said the staff would like to meet with Agency representatives to discuss the matter and the specific items that follow at 1500 hours on Monday, 1 June.

a. Copies of any information that were sent to the FPOs on the changeover as well as any employee bulletins that were prepared explaining it to them.

b. The number of FPOs who have applied and the number of those who are minorities from November 1986 to the present.

c. Clarification of our first answer. Were the numbers cited exactly as those that existed on 10 May 1984?

d. Provide the average length of service and average age of the FPOs assigned on 10 May 1984.

e. Provide an Agency document "Personnel Security Survey Investigative Scope and Adjudicative Procedures Among Intelligence Community Agencies" (SECOM-D-135 May 1980)

f. Provide the number of SPOs and FPOs who hold SCI clearances and the number of those who are minorities.

2. Humphrey said that the staff would like to have the requested documentation as soon as possible so that they can study it prior to the 1 June meeting. He added that the staff would like to have a person present from the Agency who is familiar with the entire FPO/SPO changeover process. He indicated that Committee Counsel Mike O'Neil will attend the meeting and Tom Latimer, staff director, will be present. Accordingly, the Agency representation should include a senior officer such as the Director of Personnel as well as substantive experts from that office as well as the Office of Security.
